

YU-STORE

Numeric inventory of laboratory products:
samples, batches, commercial products

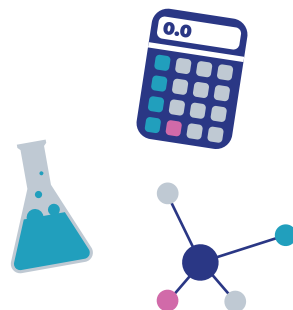

- > *Allows easy stock management of samples and consumables*
 - > *Simplifies inventories*
 - > *Gathers data, allowing fast information retrieval*

VALUE TOGETHER

YOUR DATA, STOCKS AND SAMPLES

Say goodbye to stock shortages, lost samples, chaotic information search.

Thanks to YU-STORE, you can collect your information and share it with your collaborators in a more care-free work environment!

DESCRIBE

and integrate product pages (description, supplier, reference, category, URL etc.)

LOCATE

and describe the precise location (storage room or freezer, box, position).

ADD A BARCODE

to your samples or your consumable stocks for better quantity tracking.

IMPORT / EXPORT

your data via our excel templates, extremely useful for accounting follow-up.

WARN

by the configuration of alert emails, based on minimum quantities or expiry dates.

CONTROL

hold a clear inventory of products and quantities in your storage rooms.
